Overcoming Obstacles to Surgical Plume Evacuation: What's Stopping You?

A New Continuing Nursing Education Activity Sponsored by Buffalo Filter

Lancaster, NY (March 2, 2014) Buffalo Filter in conjunction with Pfiedler Enterprises will be sponsoring a **new** continuing nursing education activity, Overcoming Obstacles to Surgical Plume Evacuation: What's Stopping You? It is intended for perioperative registered nurses who are interested in learning more about the risks and remedies for surgical plume and who are attending the AORN Surgical Conference and Expo, March 8 – 10, 2015.

The objectives of the course are to:

1. Review hazards of surgical plume
2. Recognize standards and regulations regarding surgical plume
3. Discuss plume evacuation strategies
4. Discuss obstacles to implementation of plume evacuation
5. Discuss strategies to overcome obstacles to plume evacuation

The activity will take place in Buffalo Filter Booth # 1007 on Monday, March 9th and Tuesday, March 10th. Monday's schedule is: 10:00 am, 12:00 noon and 2:00 pm. Tuesday's schedule is: 9:15 am, 11:00 am and 1:00 pm.

Upon completion (Activity Number: 8712) the attendee can receive 2.0 contact hours. For more information please contact Pfiedler Enterprises at 720-748-6144.

About Pfiedler Enterprises

Pfiedler Enterprises is the sponsor of this continuing nursing education activity.

About Buffalo Filter

Buffalo Filter is a world leading medical device manufacturer and supplier of surgical smoke plume evacuation equipment. Our products are used to evacuate and filter hazardous smoke plume and/or aerosols created during over 95% of all surgical procedures. Proven to contain toxic gases, live cellular material (including blood fragments) and viruses, this plume may also cause respiratory and eye irritation or nausea in healthcare professionals and may create visual problems for the surgeon.
